

Taking control of my anxious thoughts and feelings

We all have times when we feel anxious or worried. If you feel anxious, fearful or worried a lot of the time, or if it stops you from joining in or enjoying activities at home, school or in the community, this activity might help you.

You will think about:

1. How your body, thoughts, emotions or actions tell you when you're feeling worried or starting to feel worried.
2. What makes you feel worried or makes you feel worse.
3. How to take action to manage your worries or anxiety.

You could talk about this activity with teachers, family or others so they know how to support you.

My name is:
